

BUGS REPORT

Test Case ID #:	TC-1
Company Name:	Научно-производственное предприятие «НИП»
Product:	Web Project http://immunologs.com.ua/
Project Name:	Immunologs
Created by:	Dmytro
SQA Tester:	Dmytro (dmytro.karpenk@gmail.com)
Data Created:	03.12.2016
Last Updated:	
Issue Type:	Bug
Requirements:	None
Business Owner:	«НИП»
Status:	Open
Fix version/s:	None
Priority:	Medium
Resolution:	Unresolved
Security Level:	Developers and Reporter Only

Step	Summary	Steps to reproduce	Actual Result	Expected Result	Attachments	Working environment where the bug was detected	Status	Priority	Severity	Resolution
1	2	3	4	5	6	7	8	9	10	11
FUNCTIONALITY TESTING										
		1: Open home page (http://immunologs.com.ua/)				OC: Windows 10 Enterprise (64-bit), v.10.0.10240 Language: English Browsers: Opera 35.0 v.35.0.2066.37 Antivirus & Firewall: ESET Smart Security, v.9.0.318.24 Testing Type: Manual				
		1: Open home page (http://immunologs.com.ua/)	Ссылки переходят просто на страницы соцсетей!? SECURITY TESTING										

STATUS:

- **Open** — This issue is in the initial 'Open' state, ready for the assignee to start work on it.
- **In Progress** — This issue is being actively worked on at the moment by the assignee.
- **Resolved** — A Resolution has been identified or implemented, and this issue is awaiting verification by the reporter. From here, issues are either 'Reopened' or are 'Closed'.
- **Reopened** — This issue was once 'Resolved' or 'Closed', but is now being re-examined. (For example, an issue with a Resolution of 'Cannot Reproduce' is Reopened when more information becomes available and the issue becomes reproducible). From here, issues are either marked in Progress, Resolved or Closed.
- **Closed** — This issue is complete.

PRIORITY:

- **ASAP:** as soon, as possible.
- **Low:** The defect is an irritant which should be repaired, but repair can be deferred until after more serious defect have been fixed.
- **Medium:** The defect should be resolved in the normal course of development activities. It can wait until a new build or version is created.
- **High:** The defect must be resolved as soon as possible because the defect is affecting the application or the product severely. The system cannot be used until the repair has been done.

SEVERITY:

- **Critical:** The defect that results in the termination of the complete system or one or more component of the system and causes extensive corruption of the data. The failed function is unusable and there is no acceptable alternative method to achieve the required results then the severity will be stated as critical.
- **Major:** The defect that results in the termination of the complete system or one or more component of the system and causes extensive corruption of the data. The failed function is unusable but there exists an acceptable alternative method to achieve the required results then the severity will be stated as major (Highest priority request).
- **Moderate:** The defect that does not result in the termination, but causes the system to produce incorrect, incomplete or inconsistent results then the severity will be stated as moderate.
- **Minor:** The defect that does not result in the termination and does not damage the usability of the system and the desired results can be easily obtained by working around the defects then the severity is stated as minor (Medium priority request)
- **Trivial/Cosmetic:** The defect that is related to the enhancement of the system where the changes are related to the look and field of the application then the severity is stated as cosmetic.

RESOLUTION:

- **Fixed** — A fix for this issue has been implemented.
- **Won't Fix** — This issue will not be fixed, e.g. it may no longer be relevant.
- **Duplicate** — This issue is a duplicate of an existing issue. Note: it is recommended you create a link to the duplicated issue.
- **Incomplete** — There is not enough information to work on this issue.
- **Cannot Reproduce** — This issue could not be reproduced at this time, or not enough information was available to reproduce the issue. If more information becomes available, please reopen the issue.
- **Won't Do** — This issue won't be actioned. (This resolution is the same as Won't Fix, and is only available for software projects by default).
